* Saturday	10:30 - 8:30
* Sunday - Monday	Closed

Please be aware that occasionally you will come across fish with bones or oysters with remains of a shell. We cannot promise that every filet will be boneless. Remember that oysters are a shellfish. There are certain things that come from our distributors that we cannot see. While preparing our barbecue we make every effort to remove all bones but sometimes we miss some. However, if you come across these problems please notify our management. Our goal is complete customer satisfaction. We will be glad to assist you on any problems you are having during your dining experience.
